Amcor portable air conditioner replacement parts

When it comes to summer, staying cool is the name of the game. Welcome: portable air conditioners.These home appliances become essential for beating the heat in the sweaty summer months, but what's the best way to find the right one for you?Purchase one that meets the size requirements of the room it's going to be in. While the portability makes it seem like you can take it from living room to bedroom to office, one designed for a smaller space won't function as well in a larger one, and many also have to be hooked up to the window for ventilation.If you don't have central air in your home or office, a portable air conditioning unit can also be an important tool in managing your allergies. "Having an air conditioner allows windows in the home to be closed, decreasing pollen entry into the home," said Dr. Jennifer Diaz of ENT & Allergy Associates in Long Island, New York. They also help you breathe easy by filtering air and removing allergens.And because many seasonal allergy sufferers also deal with indoor allergens year-round, "AC also decreases the humidity in your environment, making it more difficult for indoor allergens like mold and dust mites to proliferate," she said.It also helps knowing what you're allergic to. If you have trouble with dust, then one with a HEPA filter is best, says Diaz. But if your issue is pollen, then standard filter are typically sufficient at trapping these larger particles, she says.Another pro tip: Keep filters clean. Dirty filters won't work to trap nasties as well, and they may even push more dust out into your surroundings, says Diaz. You want to find a unit that has filters that are easy to replace or clean.Now that that's out of the way, onto the good stuff: portable AC units that cool down a room quick, filter out allergens, and look great, too (because you don't want a monstrosity hanging out with you).Dyson Pure Cool Me Air, \$310 (originally \$350), AmazonWhile this leans more towards air purifier, it still sends out nice, cooling air, so it's great for the worker who is battling some serious allergies this season. It has an HEPA carbon filter to trap allergens like pollen and pet dander and pollutants. It's also certified asthma & allergy friendly by the Asthma and Allergy Foundation of America.Insignia Portable Air Conditioner, \$200, Best BuySuited to cool down up to 350 square feet, this unit is ideal for small bedrooms. It gets the job done quickly, as one reviewer said: "...it cooled the office down by 10 degrees in a half an hour." That's the efficiency you need when you're stuck in a room sweating.Frigidaire Smart Portable Air Conditioner, \$549 (originally \$600), AmazonA splurge for sure, but this one comes with all the bells and whistles you didn't know you needed in a portable AC unit. It can tackle 550 square feet, has an antimicrobial mesh filter to keep filter allergens out, a dehumidifier within, and is Wi-Fi enabled and can be controlled from an app. Plus, the design is funky and cool, and different than the traditional rectangular styles.Frigidaire 8000 BTU Portable Room Air Conditioner, \$329, WalmartThis AC unit is designed to function well without users having to give it much thought. First, the important info: It has an antibacterial filter to trap airborne particles, which is what you'd rely on if you're struggling with allergies. Beyond that, you can customize timers so cold air can greet you as you walk in the door (nice!), set sleep settings, and do it all with a remote control.LG Electronics 8000 BTU Portable AC with Dehumidifier, \$319, Home DepotThis unit, which needs to be vented through a window, efficiently chills down smaller rooms up to 200 square feet, making it perfect to sit in a home office. The sound on portable units can be a problem, but many people said that this one was comparatively quiet.hoMeLabs 14,000 BTU Portable Air Conditioner, \$500, AmazonWith 14K BTUs, this one has some serious power. That's why it can go the distance and cool down a room that's 550 to 700 square feet. A washable air filter with a built-in reminder light makes keeping the unit clean a snap. Even though it's pricy, reviewers say it's worth it for the ease of set-up, quiet run, and impressively chilly air. The company says you can install it in "8 minutes or less," so why not make a fun activity of it and time yourself?MiToo Personal Space Air Conditioner, \$34 (usually \$50), AmazonAC units are expensive, but this one is extremely affordable at under \$40. It's not going to cool an entire room, but it will cool you down by a dozen degrees. The combination cooler and air purifier keeps smells out of the room, too. Reviewers rave about how easy the filters are to clean, which is a big plus.For more home recommendations, check out: To discover more deals, shopping tips and budget-friendly product recommendations, download the new TODAY app and subscribe to our Stuff We Love newsletter! This site is not available in your country Portable air conditioners can be used in any room in your home or office. They are easy to use and setup, so you won't have to worry about precariously propping it on a window ledge or dealing with a complicated installation process. These energy efficient units will save you money on your cooling costs by only cooling the are you are in, when you need it, whereas central cooling can waste money by cooling the entire home. What Is a Portable Air Conditioner? A portable air conditioner can be used to cool a room or your entire home. It works by taking in air, cooling it, and directing it back out throughout the room. The warm air is passed through an exhaust house and out the window. The unit can also pull excess moisture from the room and some portable A/Cs even have dehumidifying options to further condition the air, as well as self-evaporative options so you won't have to manually empty the reservoir of water. Some units need to have the exhaust hose passed through the window so excess moisture can easily escape. You will receive an installation kit to ensure the unit is quickly and correctly set up in any room. Once installed, you can control the fan speed and temperature, just as you would with a window-installed unit. Top 5 Portable Air Conditioners Honeywell 10,000 BTU Portable Air Conditioner The Honeywell 10,000 BTU Portable Air Conditioner is ideal for smaller rooms of up to 350 square feet and can dehumidify up to 70 pints/day. It includes a fan and dehumidifying mode, auto thermostat control, three cooling speeds, a 24-hour programmable timer, a remote control, and an auto-evaporation system. It is quiet, efficient, powerful, and easy to use. It features a sleek, modern design with digital LED display and comes in three color options to best suit your personal style. It also includes a washable dust filter and a convenient end-of-season storage cover that houses the unit and all accessories. It is quick and easy to install with a flexible exhaust hose, an included window venting installation kit, and caster wheels so it can easily roll from room to room. It is covered by a one-year warranty and a five-year parts warranty on the sealed cooling components. The Honeywell MN10CESVWV 10,000 BTU Portable Air Conditioner is what all other portable air conditioners are compared to. It is recommended by Consumer Reports and Consumer Search, is an Amazon bestseller, tops the lists in expert testing, and is backed by outstanding online reviews, including nearly 500 5-star reviews on Amazon. Currently \$349.00 on Amazon Koldfront Ultracool 14,000 BTU Portable Air Conditioner The Koldfront PAC1401W Ultracool 14,000 BTU Portable Air Conditioner is compact, but powerful enough to cool a larger room of 500 square feet or more, with a moisture removal capacity of 72 pints/day. It includes three cooling speeds, fan and dehumidifier options, a remote control, and an automatic self-evaporative system, so you won't have to ever empty the reservoir. The 24-hour programmable timer will allow you to set the A/C to start only when you need it, so you can save even more on your energy bills. It also includes an adjustable digital thermostat ranging from 62- 88 degrees. It has a modern design and is equipped with caster wheels, so it can easily be moved from room to room. The powerful A/C is quiet, easy to use, and easy to install, with an included window kit and vent hose. It also includes a washable pre-filter and replaceable carbon filter to control odors and pollutants. This portable A/C is composed of quality materials and is built to last. It includes a one-year warranty and three years of parts only coverage for the compressor. It is recommended by Consumer Search and has outstanding reviews online. Currently \$399.99 on Amazon Friedrich ZoneAire Series 11,500 BTU Portable Air Conditioner The Friedrich P12B ZoneAire Series 11,500 BTU Portable Air Conditioner has a dual hose system that allows the unit to quietly cool the room up to 40% faster and is also more energy efficient. There are three cooling speeds, a fan mode, and a dehumidifier mode to further improve the air condition. It can cool rooms up to 550 square feet and has a dehumidifier capacity of 72 pints/day. You will never have to worry about overflow with a self-evaporative system that handles condensation, a water tank to hold excess water, and an auto shut off feature. It includes an LCD display, 24-hour programmable timer, washable air filter, and remote control. Equipped with built-in handles and caster wheels, you can easily wheel the conditioner from one room to another. It is easy to install with an included window kit and hoses that can be trimmed to fit any window openings. This is the most expensive option on our list, but reviewers tend to agree that the quality and effectiveness are worth it. It is backed by a one-year warranty on parts and labor and a five-year warranty on compressor and sealed refrigeration system. It is recommended by Consumer Reports and Consumer Search, and backed by outstanding online reviews. Currently \$549.00 on Amazon Haier 12,000-BTU Portable Air Conditioner The Haier 12,000-BTU Portable Air Conditioner, 10,000 BTU Portable Heater Combo Unit is comparable to the award-winning Haier HPN12XCM Portable Air Conditioner, 12000-BTU, with the addition of a portable heater. It is easy to use and works quickly and efficiently to cool up to 550 square feet. It offers a number of features, like a time/temperature display, digital temperature adjustments, three cooling speeds, and heating capabilities. It features a sleek, modern design and includes a washable filter and remote control. This combo unit can save you money year-round by providing the efficient heating and cooling services you need, only in the areas you need it. It is recommended by Consumer Search and backed by outstanding online reviews. Consumer Reports also recommends a number of Haier portable air conditioners, in case you don't need the additional heating capabilities. Currently \$413.00 on Amazon Whynter 14,000 BTU Dual Hose Portable Air Conditioner The Whynter 14,000 BTU Dual Hose Portable Air Conditioner (ARC-14S) has a dual hose system, so it is very effective and can quickly cool the room. It can cool up to 500 square feet and dehumidify up to 101 pints/day. It is quiet, efficient, easy to use, and features a modern, classic design. The powerful system has an auto drain function to control condensation, so you won't have to worry about emptying the reservoir. It can be easily moved from room to room with caster wheels. It has three fan speeds, fan and dehumidifier-only options, full thermostat control with digital readout, a 24-hour programmable timer, and a remote control. The eco-friendly option is gentle on the environment and also includes a washable pre-filter and odor-neutralizing carbon filter to further improve the air quality. It is easy to install with an extendable exhaust hose and included window venting kit. It includes a one-year limited warranty and three-year warranty on the compressor. It is also an Amazon bestseller and backed by outstanding online reviews. Consumer Reports also recommends the Whynter 14,000 BTU Dual Hose Portable Air Conditioner with Heater (ARC-14SH). Currently \$485.00 on Amazon And those are our recommendations for the best portable air conditioners. As always, be sure to check Wise Bread's Buying Calendar to learn when and how to buy just about anything!
